## High School Bond Vote Set Saturday from 8-7

Voters in the Hamlin Independent School District will go to the polls Saturday to decide the fate of the \$750,000 bond election called for the construction of a new high school building.

Voting will start at 8 a.m. and end at 7 p.m. at the high school building. A. B. Carlton will be election judge, with A. A. Wade as assistant judge, and Mrs. W. A. Cassle and Mrs. H. L. Mehaffey will be clerks.

All qualified voters residing within the district that have property rendered on the school tax roll, either real or personal, are eligible to vote in the election.

The proposed building for four high school grades would be built on property owned by the district located just north of the football stadium.

Final plans for the building would have to be made after

the passage of the bond election.

Tentative plans call for a complete high school with two science labs, two home economics labs, FFA shops, physical education gym, band room and cafeteria.

Under this plan the school would continue to use the present gym and air conditioned auditorium. The gym, the newest of all the school's buildings at this time, would be used for basketball games.

## Heavy Storm Lashes Hamlin Sun. Evening

Property owners are busy this week cleaning up businesses and homes after the damaging storm that swept through the city about 7:30 Sunday evening, bringing with it .88 inches of rain.

The main path of the storm was east of South Central, the main street of the city. In this area eight West Texas Utilities poles in one stretch were knocked down. Electrical power in some sections was off from one to four hours because of poles being down or wires being cut by flying sheet metal.

Telephone service was also disrupted.

Estimates of damages run as high as \$250,000.

Most heavily damaged was Joe Hudspeth's, tire and appliance store. The south wall of the retail section was blown

out and all the glass on the front of the building was broken. The building was damaged so severely that the front portion will have to be rebuilt.

The appliance, television, other retail departments and the business office have been moved to a building on South Central formerly occupied by Connally Ford Sales.

The auto service department will continue in the present location in the back of the building on Southeast

Ave. A.

The high winds accompanied by marble-sized hail and what is now believed to have been a small tornado hit about 7:30 p. m. Sunday. Several residents and farmers reported seeing the funnel.

In the northwest section of town damage was mostly to fences, trees, windows, cars, television antennas and car windows. Most destructive were high winds and flying objects.

The hail and high winds

wiped out many fruit trees and gardens.

Several plate glass windows in the business section were blown out and roofs were damaged.

At Carl Murrell Chevrolet car lot on Southeast Ave. A the galvanized metal roof and the cars underneath were damaged. At the main office of the Chevrolet company on South Central, the awning in the front sagged.

A warehouse at United Industries toppled across 100 yards of Santa Fe Railway track. Wreckage was cleared from the main track by Monday. Two auxiliary tracks were cleared later.

A part of a warehouse roof at Hamlin Farmers Compress was blown off.

One end of a cotton warehouse belonging to Jay's Storage was destroyed and numerous other sheet metal buildings around town were damaged.

City pick-up men were still busy Wednesday picking up trees and broken limbs that littered the city. In some spots trees were completely uprooted.

Many people were at church when the storm moved in. At the First Methodist Church, the closing of the Vacation Bible School was in progress and the children were singing. After calming them, the evening service continued.

At Central Avenue Baptist Church, the pastor, Rev. Bill Irwin glanced out of the window in time to see the funnel. He calmly asked the congregation to move to the front of the church without giving the reason and avoided any panic.

There were no reports of any injuries received in the storm.

### Survey Teams Start Checking County Fields

Two members of The Insect Survey Team started checking cotton fields in Jones County on Monday of last week according to Jones County Agent Kirby Clayton. The team, says Clayton, checked 28 different fields in all areas of Jones County and found only minor damage of army worms on the Keesee farm near Nugent.

The team composed of James Kyzar and Donald Fleming are sponsored by The Rolling Plain Cotton Growers Inc. and are working under the supervision of Jones County Agent Kirby Clayton.

### AN EDITORIAL —

## Passage of Bond Issue Urged

The voters in the Hamlin School District not only will decide the outcome of the bond election to build a new high school Saturday but they will also make a decision that will greatly affect the future of Hamlin.

We believe that a vote for the high school building is a vote for the progress and growth of Hamlin while a vote against it is a vote to retreat into oblivion. A town that quits trying to get ahead soon ceases to exist.

Hamlin needs a better school system if our children are to compete in the modern world. While a new building will not solve all of the needs of a school system, it is a step in the right direction. Without proper facilities it is hard to have a good school.

While the question of cost should be considered only after the question of what we must have is studied, the cost of the building to the individual taxpayer is very meager.

Some of the opposition to the issue is based on the declining oil values and the possibility of the tax rate being raised later to make up for this. The only answer to this argument is that the people of Hamlin will just have to start paying their own way. We have been very fortunate in having so much of our school expenses paid for us by oil values.

The board and the special committee appointed by the board studied the many possibilities that might solve the needs of the school before calling this election and decided that the only answer to the problem was a new high school building.

Regardless of whether you are for or against the bond issue we urge you to vote Saturday. This should be decided by the majority of the people and not just a small minority. The majority are the ones that pay the bills and realize the benefits of the school system and therefore should be the ones to decide the direction the school will take in the future.

Your vote IS important.

## FAIRVIEW NEWS...

By Mrs. Elmer Joiner  
Hamlin made all of the news headlines last evening with a storm that hit the very heart of the town, with rain, hail and tornadoic winds. Out this way we only had some wind and rain showers, no hail with six tenths of an inch of rain measured.

We were all in church when the cloud came up but got started home before it started raining. It must have been pretty scary around here for our little dog had managed to get in the house and close the back door. Of course there was a logical answer for that since the wind must have been blowing rather hard, blowing the screen open and the door closed, but it was an amusing situation.

George Wainscott had surgery again last Thursday, in Abilene Hospital, where he is still a patient. An obstruction had developed in his intestine. At last report he was doing well as could be expected under the circumstances, for two surgeries in two weeks is an ordeal for anyone to go through. Having had experiences in our family several times with obstructions, do know that they can be serious in a short time and have to be relieved. We do hope this time he can be on the road to recovery and soon be home.

The biggest news this week has been weddings, two in a row, one Friday night and one Saturday night. Nothing is more exciting, or more beau-

tiful, than a wedding, even though it is tinged with sadness for those losing a child from home. But, if we just consider that we are gaining a new family instead of losing one, it looks differently.

Friday night, Jimmy Wainscott and Jeanette Goolsby pledged their vows in the chapel of the First Baptist Church, with the Rev. Bryan Bryant officiating. There is no need to go into details, since there will be a description of the wedding elsewhere in the paper, but just wish to say that the bride looked beautiful, the groom looked handsome and it was a lovely ceremony, followed by a reception in the church fellowship hall.

Saturday night Carlton (Corky) Taylor and Wanda Kay McCoy repeated their vows in the sanctuary of the First Baptist Church, with the Rev. John C. Jenkins, of Spur, officiating and Lester Morton, of Big Spring, as soloist. Rev. Jenkins and Mr. Morton are long time friends of the bride's parents.

Since Kay is our granddaughter anything we might say would be prejudiced. I am tempted to not even comment on it, but Granny just has to do a little bragging, since it is our first one to get married, so bear with me for a few moments. As I stated, this is grandmother speaking, but to us it was the most beautiful wedding, with the most beautiful bride we ever saw, and we

do not wish to forget the grandson, he looked just as sweet as the bride. You just have to have the experience yourself to know what I am trying to say, and many have had it, but since it was our first we got rather excited about it all. It seems that the parents all came through it with flying colors, but with a great big empty spot, but as I said where they did have one child they now have two.

Mr. and Mrs. Fred Rosenbaum went to Waco Sunday to attend the Downey reunion.

Mr. and Mrs. Woodrow Goodwin and Mr. and Mrs. Winslow Gray visited with Mr. Wainscott, Sunday afternoon, in the Abilene Hospital.

Mrs. R. C. Ritchey was a Monday afternoon visitor with Mrs. Elmer Joiner.

Coming for the wedding Saturday night, Sonny Joiner, San Antonio, spent Saturday night and Sunday with his brother, the Elmer Joiners. He went on to Lubbock to visit his sister, Mr. and Mrs. Henry Kee.

Mr. and Mrs. Buck Joiner and children, Odessa, also spent Saturday night and Sunday with her parents and his, having come to attend Kay's wedding also.

Several of the Wainscott family also were visitors over the weekend, coming to attend their brother's wedding, and visiting with their father, but did not get any details. Mrs. Wainscott did get to be present at the ceremony but Mr. Wainscott had to miss it, which made it hard for all concerned.

Mr. and Mrs. Henry were absent all day Sunday, we wonder where they took off for, but since her brother is so ill in Rotan, they might have gone to be with him.

A 3c Danny Earl Kelly and his mother, Mrs. H. V. Kelly, visited with his grandmother, Mrs. Florence Calvert last week. Another visitor was Mrs. Beatrice Palmer of Roby.

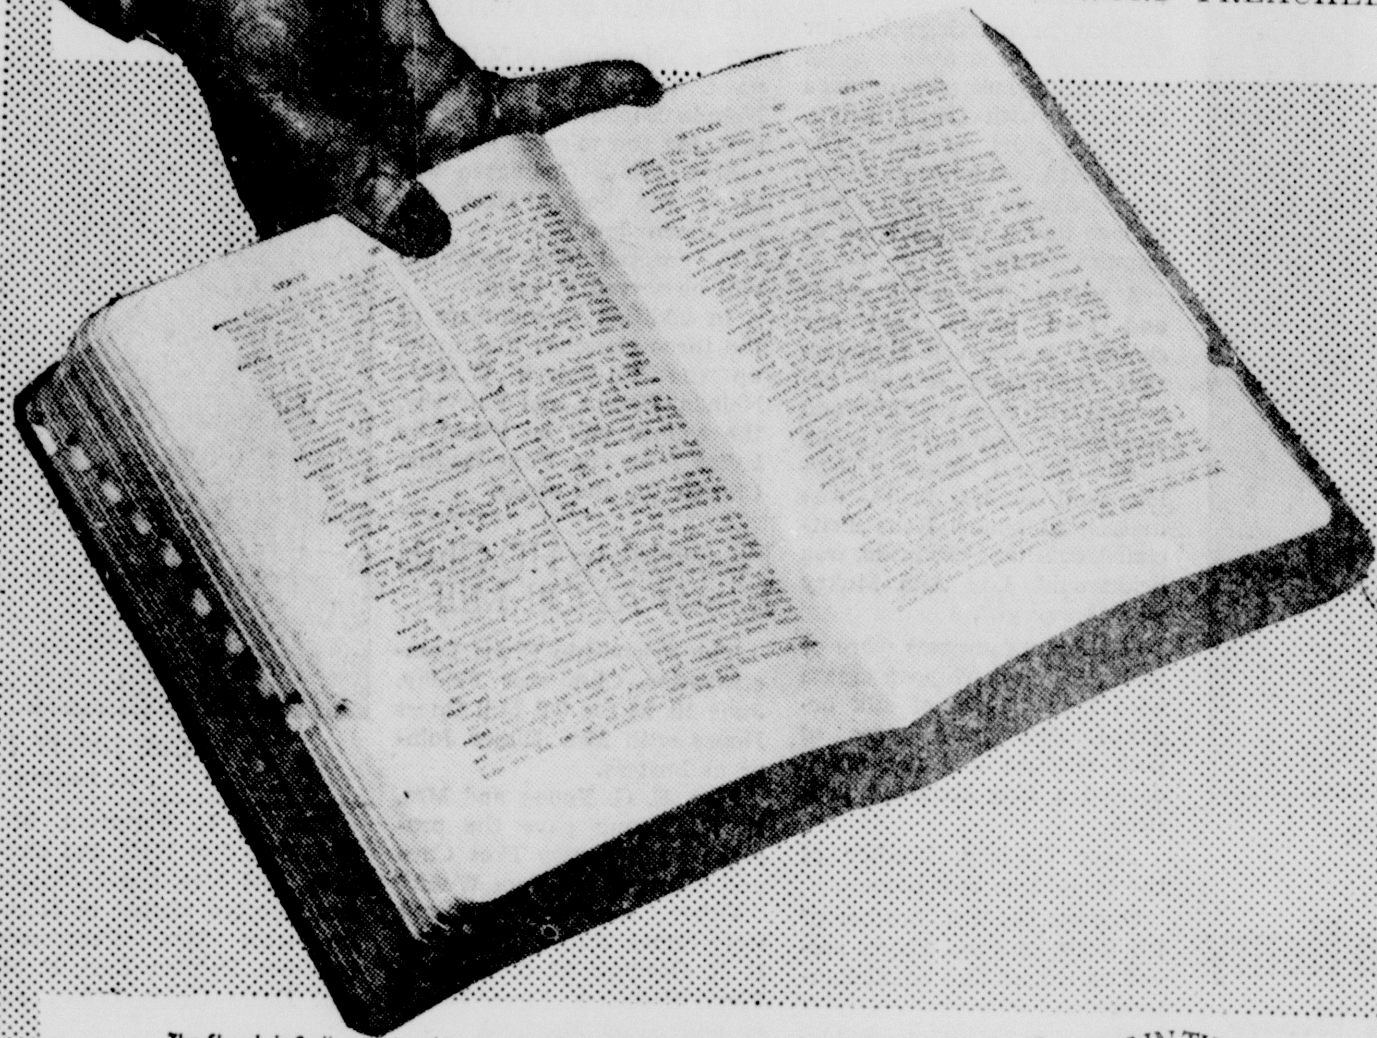

# WORD POWER!

One of our popular publications, encourages the learning of new words, and in each edition prints a few words that we can add to our vocabulary.

Words have swayed thousands, even changed the course of history. It is through the use of words that men are saved.

"For after that in the wisdom of God the world by wisdom knew not God, it pleased God by the foolishness of preaching to save them that believe."... "Because the foolishness of God is wiser than men."

ATTEND CHURCH... HEAR GOD'S WORD PREACHED

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

We wish to congratulate and thank our police, our fireboys, our preachers (Bro. Byron Bryant met us as we drove into town and how good we felt when he tenderly assured us no one was hurt, but told us to watch for wires, etc.) Then we are grateful for the civil defense men and the Jaycees, the West Texas Utilities boys and the Lone Star Gas men, our city officials and employees, our Boy Scouts, Rotarians, Lions, and our doctors and nurses who stayed on alert ready to help, and for all who helped. Hamlin is a good town — aren't you glad you live in Hamlin?

## SYLVESTER NEWS...

By Mrs. R. M. Babb

My how we appreciate the nice rain. The hail was scary but we received .8 in. of rain here in town. Southeast of town only had a shower, we are just thankful that we did not have destructive winds and hail.

Buster Brown is really enjoying his new blue Chevrolet, and I understand he will soon be in school again, additional training for his work.

Some forty youngsters and teachers enjoyed the past week in Vacation Bible School, they had Commencement on Friday with a large number of proud mothers and fathers, listening to what their offsprings had learned during the week.

Neal Tankersly of Ft. Worth spent the past week with his great uncle, Ernest Kiser.

Our sympathy to Mrs. Raymond Kiser in the loss of her father, Mr. Cox of Odem.

Pvt. Freddy Perales has spent his Army leave with his parents, the Pete Perales.

Mrs. M. D. Douglas spent several days in Abilene. While there she attended the Douglas reunion.

Mr. and Mrs. Roy Race of Oklahoma spent several days with his mother, Mrs. Arch Griffin.

Mr. and Mrs. Raymond Griffin made a fast trip to Okla. City a few days ago. They

reported a good time but had some car trouble.

Mrs. Tartar, mother of Mrs. Roy Herron, is spending a few weeks with her daughter's family.

I had the report that they had a large crowd to help work the Newman Cemetery last week and a lot of talking and plenty of food. It does people good to get together once in a while just to find out how the rest of the world is getting along.

Cecil Kiser Jr. of Sweetwater made the trip to Indiana to get his granddad. They stopped in and spent the night with his brother, Thomas Roy and his wife, Thomas is stationed in Alabama. They arrived here early Sat. morning. Mr. E. C. Kiser reported a fine time while visiting with Rachel and her family.

Ross and Lenora Douglas reported that one of their plate glass windows was blown out Sunday night causing quite a bit of damage to the stock in the store. They own the Hamlin Building Supply Store.

Mrs. Carra Perkins left on Saturday morning going home with her daughter, Doris Roquemore of Irving. She will keep the granddaughter while Doris has surgery, good luck Doris.

**WTU NOTEBOOK—PATTERNS FOR PROGRESS**

**INDUSTRIAL PROSPECTS**  
... a must in Economic Development

Obtaining leads on industries that might locate in a community is one of the hardest parts of any sound economic development program. The lack of an industrial prospecting program that produces several leads may cause serious mistakes by a community in financing or other endeavors to attract unsound or unattractive industry. A community needs a well balanced program, combining all the techniques and utilizing all of the sources that will give it increased effectiveness and chances for real success.

**LOCAL PEOPLE AS A SOURCE OF INDUSTRIAL PROSPECTS** — usually provide a sound reason or give the community a competitive advantage in attracting the industry.

- BUSINESSMEN**—should ask the company representatives they buy from if the company needs additional manufacturing facilities to serve this market area, also, service stations, restaurants and motel people can ask their customers.
- CITIZENS**—who know someone that works for an industry should inquire if that industry might be interested in locating a plant.
- EXISTING INDUSTRY**—may need a companion industry to supply them with raw materials or services. Expansion of existing industry is sound economic development.
- LOCAL IDEAS**—can provide leads for the local people to establish an industry of their own or attract a certain type industry.
- EX-CITIZENS**—should be contacted, advising them and asking their help to obtain leads on any industry that could logically locate in the town.

**CHAMBER OF COMMERCE ACTIVITY** — should utilize such programs as direct mail, asking local citizens to call on industries when they are on a trip — watching all news media for possible leads or indications that a company might expand.

**COOPERATION WITH OTHER AGENCIES** — such as utilities, banks, railroads, regional and state development organizations can provide leads for new industry. Keep all of these organizations fully advised of the local programs, advantages, activities and community interest for attracting new industry for improved economy in your community.

**ANY and ALL** industrial leads should be handled through and by the local group that has been delegated this responsibility, usually the Chamber of Commerce.

Her selection was made by the membership from a preliminary selection of six senior girls chosen by the scholarship committee. Mrs. Levi McCallum, Mrs. Clarence Hyer

and Mrs. E. J. Hawkins, chairman, were on the committee.

Requirements for the honor include an 80 scholastic average and a character reference from the pastor of the church they attend.

## Meeting Set In Stamford June 21 On Cotton Research Act At 12 P.M.

A discussion and information meeting on the Cotton and Research Act, H. R. 12322 will be held in Stamford on Tuesday, June 21, in the Stamford High School auditorium at 2:00 p. m. All cotton producers and interested businessmen in the area are invited to attend.

This Act is now being considered in Congress which would provide for a referendum of producers to authorize a uniform collection of \$1.00 per bale on all U. S. cotton. Producers not wishing to participate would retain the right to request and receive a refund of the assessment.

Funds would be used to mount a greatly expanded research and promotion program for cotton in an attempt to reverse the trend of cotton's declining share of the fiber market.

Disposition of the funds collected would be in the hands of a Cotton Board appointed by the Secretary of Agriculture from a list of names submitted by approved state and regional cotton producer organizations. The actual projects undertaken in the pro-

gram would be decided on and contracted for by a beltwide cotton producer organization governed by producer delegates chosen in much the same manner as CPI Trustees are selected.

The program for the meeting will be presented by Clifford Kirkpatrick, director of field service for the National Cotton Council of Memphis, Tenn., and Earl Younts, NCC District field man from Lubbock. Also Emmett Robinson, Assistant Director of Public Relations of the NCC.

According to the letter of invitation sent to cotton leaders throughout the Rolling Plains area, the theme will revolve around these four questions:

Does research and promotion pay dividends for cotton?

Does cotton need additional research and promotion and if so, how much?

Can farmers operate and administer the Research and Promotion Act effectively?

What is the next step?

National Cotton Council officials are emphasizing that this is a completely new presentation from any that has

been made in the area, and they join other cotton leaders in urging all producers to attend.

The prepared program is expected to last about 45 minutes, after which whatever time is necessary will be devoted to answering producer questions.

Charles W. Stenholm, executive vice president of the Rolling Plains Cotton Growers, Inc., said this week: "There can be no doubt as to the importance of this meeting. The fate of the cotton research and promotion program being proposed will have a profound effect on the future of cotton production in the Rolling Plains. And since that fate will eventually be decided by the individual votes of producers, they owe it to themselves to become as well informed as possible on the issue."

## Commissioners Court to Seek New Bids On Five 1967 Model Trucks

Jones County Commissioners Court Monday delayed opening bids on the purchase of five new trucks when it was learned that some companies could not bid at this time because new models will be out shortly.

Commissioners decided they would re-advertise and would purchase 1967 models. Two of the two-ton trucks are for Precinct 2, two for Precinct 1 and one for Precinct 4.

Members of the court heard explained at length a hospitalization program being offered by Blue Cross that operates in conjunction with Medicare. All persons 65 and over, employed by the county, would have the opportunity of taking out a supplemental policy at a lower rate.

With the removal of these older individuals from the group, a lower rate is likely for the coming years, it was brought out.

The court passed a resolution in which they agreed to attempt negotiations looking toward establishing a county planning commission. This was necessary in order that the Neinda Water District could receive a \$295,000 grant from the federal government. The district plans to borrow an additional \$376,000 to lay water lines to supply customers in a district which runs almost around the city of Hamlin.

Another resolution raised the amount of money a single man can make from \$95 to \$100 and still be eligible to receive surplus government commodities. This was at the request of a state agency so that the local rule would be in line with that all over the state.

In other action, the court rejected one bid for a bridge to be constructed over California Creek in Precinct 1. The bid was for \$13,400 which the court felt was too high.

A new policy on sick leave was established. Employees will be given one day per month. This can accumulate up to a maximum of 30 days.

Commissioners learned that the tax rate for road district 1, which includes the northern half of the county, likely can be reduced to 15 cents. This is a reduction of 10 cents. It also was announced that this likely will be the last year the tax will be collected.

Tuesday, the board of equalization was told that the oil valuations were off \$600,000. The county is represented by the firm of Pritchett and Abbott.

Thursday and Friday the equalization board will set valuations on real estate. Some 65 to 70 people have submitted lower renditions of property, which would indicate that a good number will be present for the hearing.

# HEIDENHEIMER'S

**JOE HUDSPETH'S HIT HARD BY STORM** — The south wall of Joe Hudspeth's tire and appliance store lay on the sidewalk and parking area and the north wall is leaning against the warehouse next to it after the violent Sunday night storm. The front of the building

which faces west was exposed when the plate glass windows were blown out. No estimate of damage was available at press time. The tire and auto service department in the back of the building was not damaged severely and was in operation Monday.

## Heavy Storm Lashes Hamlin Sun. Evening

Property owners are busy this week cleaning up businesses and homes after the damaging storm that swept through the city about 7:30 Sunday evening, bringing with it .88 inches of rain.

The main path of the storm was east of South Central, the main street of the city. In this area eight West Texas Utilities poles in one stretch were knocked down. Electrical power in some sections was off from one to four hours because of poles being down or wires being cut by flying sheet metal.

Telephone service was also disrupted.

Estimates of damages run as high as \$250,000.

Most heavily damaged was Joe Hudspeth's, tire and appliance store. The south wall of the retail section was blown

out and all the glass on the front of the building was broken. The building was damaged so severely that the front portion will have to be rebuilt.

The appliance, television, other retail departments and the business office have been moved to a building on South Central formerly occupied by Connally Ford Sales.

The auto service department will continue in the present location in the back of the building on Southeast

Ave. A.

The high winds accompanied by marble-sized hail and what is now believed to have been a small tornado hit about 7:30 p. m. Sunday. Several residents and farmers reported seeing the funnel.

In the northwest section of town damage was mostly to fences, trees, windows, carports, television antennas and car windows. Most destructive were high winds and flying objects.

The hail and high winds

wiped out many fruit trees and gardens.

Several plate glass windows in the business section were blown out and roofs were damaged.

At Carl Murrell Chevrolet car lot on Southeast Ave. A the galvanized metal roof and the cars underneath were damaged. At the main office of the Chevrolet company on South Central, the awning in the front sagged.

A warehouse at United Industries toppled across 100 yards of Santa Fe Railway track. Wreckage was cleared from the main track by Monday. Two auxiliary tracks were cleared later.

A part of a warehouse roof at Hamlin Farmers Compress was blown off.

One end of a cotton warehouse belonging to Jay's Storage was destroyed and numerous other sheet metal buildings around town were damaged.

City pick-up men were still busy Wednesday picking up trees and broken limbs that littered the city. In some spots trees were completely uprooted.

Many people were at church when the storm moved in. At the First Methodist Church, the closing of the Vacation Bible School was in progress and the children were singing. After calming them, the evening service continued.

At Central Avenue Baptist Church, the pastor, Rev. Bill Irwin glanced out of the window in time to see the funnel. He calmly asked the congregation to move to the front of the church without giving the reason and avoided any panic.

There were no reports of any injuries received in the storm.

## High School Bond Vote Set Saturday from 8-7

Voters in the Hamlin Independent School District will go to the polls Saturday to decide the fate of the \$750,000 bond election called for the construction of a new high school building.

Voting will start at 8 a.m. and end at 7 p.m. at the high school building. A. B. Carlton will be election judge, with A. A. Wade as assistant judge, and Mrs. W. A. Castle and Mrs. H. L. Mehaffey will be clerks.

All qualified voters residing within the district that have property rendered on the school tax roll, either real or personal, are eligible to vote in the election.

The proposed building for four high school grades would be built on property owned by the district located just north of the football stadium.

Final plans for the building would have to be made after

the passage of the bond election.

Tentative plans call for a complete high school with two science labs, two home economics labs, FFA shops, physical education gym, band room and cafeteria.

Under this plan the school would continue to use the present gym and air conditioned auditorium. The gym, the newest of all the school's buildings at this time, would be used for basketball games.

### John Campbell Becomes Co-pastor Here With Father

John Campbell, son of Rev. James A. Campbell, has moved here from California and will join his father as co-pastor of the United Pentecostal Church, 219 N. E. Ave. B.

The younger minister graduated June 3 from Western Apostolic Bible College, Stockton, Calif., with a B.A. degree in English Bible.

His wife, the former Carla Belknap of Marble Falls, Tex., is also a graduate of W.A.B.C. They live at 537 N. W. Ave. G.

Rev. James Campbell has been pastor here since November, 1965, moving here from California where he had lived for six years.

The auditorium in the present high school building would be used for concerts and plays. The cafeteria in the proposed building would take care of school assemblies and other school events for the students.

The estimated cost of the building is \$600,000.00 with \$65,000.00 being allotted for equipment.

Supt. C. F. Cook stated that increased requirements, complete integration of the schools and other causes has brought about the need for additional

### Fourth of July Festival Planned

The Jaycees and Jaycee-ettes will have concessions, booths, watermelon eating contests, the ducking sam, in addition to the miniature golf, to offer entertainment for all the family. The event starts at 1 p.m.

The day's activities will be climaxed with a contest at 8 p.m. in the football stadium when Miss Fourth of July will be selected.

space within the school system.

Plans are for the present high school building to be used for the seventh and eighth grades. Other existing buildings would be used for the first six grades. All present buildings would be repaired and remodeled to fit the needs of each school. \$42,000.00 would be set aside for this purpose.

The bond issue would require a 28 cent increase in the tax rate. This would amount to an increase of about 17 per cent in school taxes.

### AN EDITORIAL —

### Passage of Bond Issue Urged

The voters in the Hamlin School District not only will decide the outcome of the bond election to build a new high school Saturday but they will also make a decision that will greatly affect the future of Hamlin.

We believe that a vote for the high school building is a vote for the progress and growth of Hamlin while a vote against it is a vote to retreat into oblivion. A town that quits trying to get ahead soon ceases to exist.

Hamlin needs a better school system if our children are to compete in the modern world. While a new building will not solve all of the needs of a school system, it is a step in the right direction. Without proper facilities it is hard to have a good school.

While the question of cost should be considered only after the question of what we must have is studied, the cost of the building to the individual taxpayer is very meager.

Some of the opposition to the issue is based on the declining oil values and the possibility of the tax rate being raised later to make up for this. The only answer to this argument is that the people of Hamlin will just have to start paying their own way. We have been very fortunate in having so much of our school expenses paid for us by oil values.

The board and the special committee appointed by the board studied the many possibilities that might solve the needs of the school before calling this election and decided that the only answer to the problem was a new high school building.

Regardless of whether you are for or against the bond issue we urge you to vote Saturday. This should be decided by the majority of the people and not just a small minority. The majority are the ones that pay the bills and realize the benefits of the school system and therefore should be the ones to decide the direction the school will take in the future.

Your vote IS important.

### BRIDGE WINNERS

Mr. and Mrs. Henry Albritton were first at the weekly Hamlin Duplicate Bridge Club meeting Tuesday evening at the Oil Mill Guest House.

**CLEANING UP AFTER STORM** — Jerry Legan, center, is one of the employees at Joe Hudspeth's busy cleaning up debris after the late Sunday evening tornado and hail storm. The structural damage to the building will necessitate the rebuilding of the front retail section of the store. Concrete blocks, ceiling tile, and insulation material, were scattered by the impact of the storm. The store and business office will be located in the former location of Connally Ford Sales until the store is rebuilt.

## FAIRVIEW NEWS...

By Mrs. Elmer Joiner  
Hamlin made all of the news headlines last evening with a storm that hit the very heart of the town, with rain, hail and tornado winds. Out this way we only had some wind and rain showers, no hail with six tenths of an inch of rain measured.

We were all in church when the cloud came up but got started home before it started raining. It must have been pretty scary around here for our little dog had managed to get in the house and close the back door. Of course there was a logical answer for that since the wind must have been blowing rather hard, blowing the screen open and the door closed, but it was an amusing situation.

George Wainscott had surgery again last Thursday, in Abilene Hospital, where he is still a patient. An obstruction had developed in his intestine. At last report he was doing well as could be expected under the circumstances, for two surgeries in two weeks is an ordeal for anyone to go through. Having had experiences in our family several times with obstructions, do know that they can be serious in a short time and have to be relieved. We do hope this time he can be on the road to recovery and soon be home.

The biggest news this week has been weddings, two in a row, one Friday night and one Saturday night. Nothing is more exciting, or more beau-

tiful, than a wedding, even though it is tinged with sadness for those losing a child from home. But, if we just consider that we are gaining a new family instead of losing one, it looks differently.

Friday night, Jimmy Wainscott and Jeanette Goolsby pledged their vows in the chapel of the First Baptist Church, with the Rev. Bryan Bryant officiating. There is no need to go into details, since there will be a description of the wedding elsewhere in the paper, but just wish to say that the bride looked beautiful, the groom looked handsome and it was a lovely ceremony, followed by a reception in the church fellowship hall.

Saturday night Carlton (Corky) Taylor and Wanda Kay McCoy repeated their vows in the sanctuary of the First Baptist Church, with the Rev. John C. Jenkins, of Spur, officiating and Lester Morton, of Big Spring, as soloist. Rev. Jenkins and Mr. Morton are long time friends of the bride's parents.

Since Kay is our granddaughter anything we might say would be prejudiced. I am tempted to not even comment on it, but Granny just has to do a little bragging, since it is our first one to get married, so bear with me for a few moments. As I stated, this is grandmother speaking, but to us it was the most beautiful wedding, with the most beautiful bride we ever saw, and we

do not wish to forget the grandson, he looked just as sweet as the bride. You just have to have the experience yourself to know what I am trying to say, and many have had it, but since it was our first we got rather excited about it all. It seems that the parents all came through it with flying colors, but with a great big empty spot, but as I said where they did have one child they now have two.

Mr. and Mrs. Fred Rosenbaum went to Waco Sunday to attend the Downey reunion.

Mr. and Mrs. Woodrow Goodwin and Mr. and Mrs. Winslow Gray visited with Mr. Wainscott, Sunday afternoon, in the Abilene Hospital.

Mrs. R. C. Ritchey was a Monday afternoon visitor with Mrs. Elmer Joiner.

Coming for the wedding Saturday night, Sonny Joiner, San Antonio, spent Saturday night and Sunday with his brother, the Elmer Joiners. He went on to Lubbock to visit his sister, Mr. and Mrs. Henry Kee.

Mr. and Mrs. Buck Joiner and children, Odessa, also spent Saturday night and Sunday with her parents and his, having come to attend Kay's wedding also.

Several of the Wainscott family also were visitors over the weekend, coming to attend their brother's wedding, and visiting with their father, but did not get any details. Mrs. Wainscott did get to be present at the ceremony but Mr. Wainscott had to miss it, which made it hard for all concerned.

Mr. and Mrs. Henry were absent all day Sunday, we wonder where they took off for, but since her brother is so ill in Rotan, they might have gone to be with him.

A 3c Danny Earl Kelly and his mother, Mrs. H. V. Kelly, visited with his grandmother, Mrs. Florence Calvert last week. Another visitor was Mrs. Beatrice Palmer of Roby.

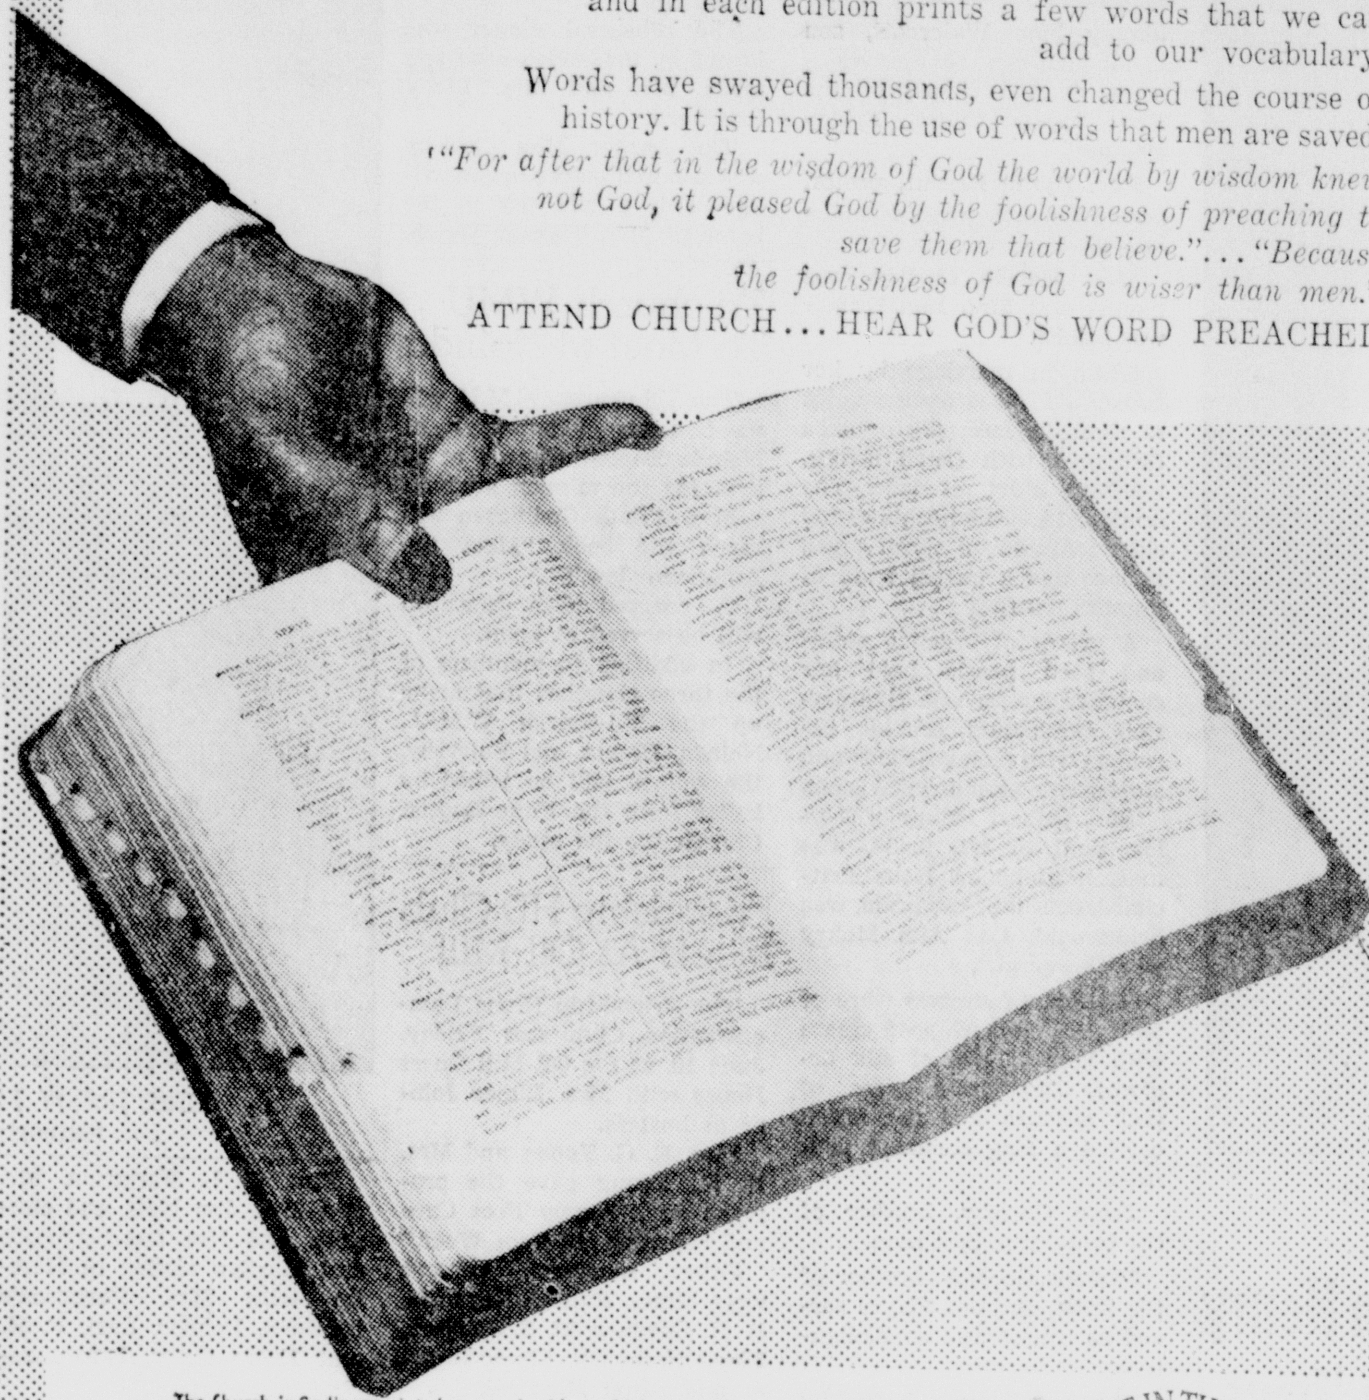

# WORD POWER!

One of our popular publications, encourages the learning of new words, and in each edition prints a few words that we can add to our vocabulary.

Words have swayed thousands, even changed the course of history. It is through the use of words that men are saved.

"For after that in the wisdom of God the world by wisdom knew not God, it pleased God by the foolishness of preaching to save them that believe."... "Because the foolishness of God is wiser than men."

ATTEND CHURCH... HEAR GOD'S WORD PREACHED

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

### INDUSTRIAL PROSPECTS

... a must in Economic Development

Obtaining leads on industries that might locate in a community is one of the hardest parts of any sound economic development program. The lack of an industrial prospecting program that produces several leads may cause serious mistakes by a community in financing or other endeavors to attract unsound or unattractive industry. A community needs a well balanced program, combining all the techniques and utilizing all of the sources that will give it increased effectiveness and chances for real success.

**LOCAL PEOPLE AS A SOURCE OF INDUSTRIAL PROSPECTS** — usually provide a sound reason or give the community a competitive advantage in attracting the industry.

- BUSINESSMEN**—should ask the company representatives they buy from if the company needs additional manufacturing facilities to serve this market area, also, service stations, restaurants and motel people can ask their customers.
- CITIZENS**—who know someone that works for an industry should inquire if that industry might be interested in locating a plant.
- EXISTING INDUSTRY**—may need a companion industry to supply them with raw materials or services. Expansion of existing industry is sound economic development.
- LOCAL IDEAS**—can provide leads for the local people to establish an industry of their own or attract a certain type industry.
- EX-CITIZENS**—should be contacted, advising them and asking their help to obtain leads on any industry that could logically locate in the town.

**CHAMBER OF COMMERCE ACTIVITY** — should utilize such programs as direct mail, asking local citizens to call on industries when they are on a trip — watching all news media for possible leads or indications that a company might expand.

**COOPERATION WITH OTHER AGENCIES** — such as utilities, banks, railroads, regional and state development organizations can provide leads for new industry. Keep all of these organizations fully advised of the local programs, advantages, activities and community interest for attracting new industry for improved economy in your community.

**ANY and ALL** industrial leads should be handled through and by the local group that has been delegated this responsibility, usually the Chamber of Commerce.

## Meeting Set In Stamford June 21 On Cotton Research Act At 2 P.M.

A discussion and information meeting on the Cotton and Research Act, H. R. 12322 will be held in Stamford on Tuesday, June 21, in the Stamford High School auditorium at 2:00 p. m. All cotton producers and interested businessmen in the area are invited to attend.

This Act is now being considered in Congress which would provide for a referendum of producers to authorize a uniform collection of \$1.00 per bale on all U. S. cotton. Producers not wishing to participate would retain the right to request and receive a refund of the assessment.

Funds would be used to mount a greatly expanded research and promotion program for cotton in an attempt to reverse the trend of cotton's declining share of the fiber market.

Disposition of the funds collected would be in the hands of a Cotton Board appointed by the Secretary of Agriculture from a list of names submitted by approved state and regional cotton producer organizations. The actual projects undertaken in the program would be decided on and contracted for by a beltwide cotton producer organization governed by producer delegates chosen in much the same manner as CPI Trustees are selected.

The program for the meeting will be presented by Clifton Kirkpatrick, director of field service for the National Cotton Council of Memphis, Tenn., and Earl Younts, NCC District field man from Lubbock. Also Emmett Robinson, Assistant Director of Public Relations of the NCC.

According to the letter of invitation sent to cotton leaders throughout the Rolling Plains area, the theme will revolve around these four questions:

Does research and promotion pay dividends for cotton? Does cotton need additional research and promotion and if so, how much?

Can farmers operate and administer the Research and Promotion Act effectively? What is the next step?

National Cotton Council officials are emphasizing that this is a completely new presentation from any that has

been made in the area, and they join other cotton leaders in urging all producers to attend.

The prepared program is expected to last about 45 minutes, after which whatever time is necessary will be devoted to answering producer questions.

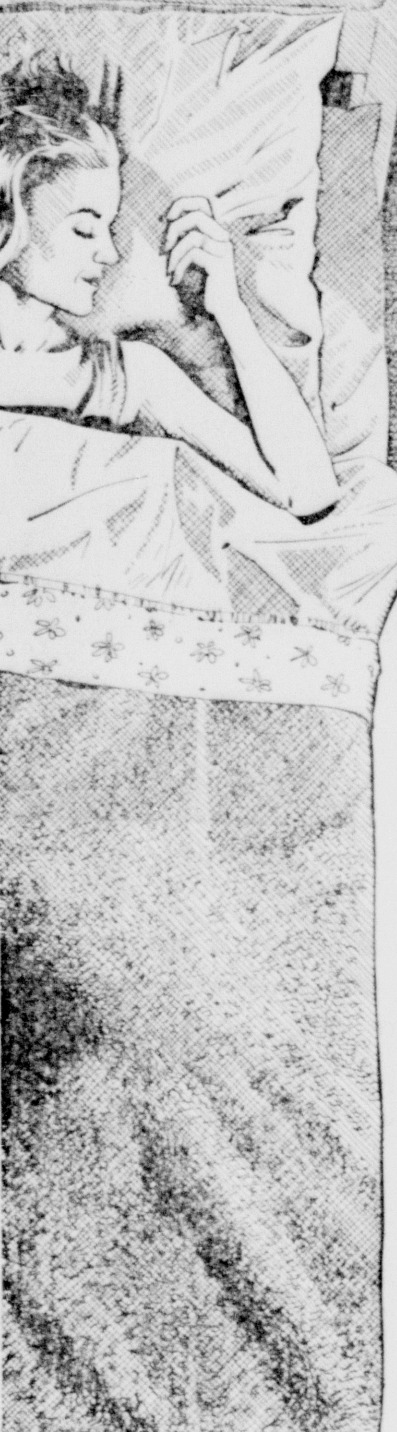

Charles W. Stenholm, executive vice president of the Rolling Plains Cotton Growers, Inc., said this week: "There can be no doubt as to the importance of this meeting. The fate of the cotton research and promotion program being proposed will have a profound effect on the future of cotton production in the Rolling Plains. And since that fate will eventually be decided by the individual votes of producers, they owe it to themselves to become as well informed as possible on the issue."

## Commissioners Court to Seek New Bids On Five 1967 Model Trucks

Jones County Commissioners Court Monday delayed opening bids on the purchase of five new trucks when it was learned that some companies could not bid at this time because new models will be out shortly.

Commissioners decided they would re-advertise and would purchase 1967 models. Two of the two-ton trucks are for Precinct 2, two for Precinct 1 and one for Precinct 4.

Members of the court heard explained at length a hospitalization program being offered by Blue Cross that operates in conjunction with Medicare. All persons 65 and over, employed by the county, would have the opportunity of taking out a supplemental policy at a lower rate.

With the removal of these older individuals from the group, a lower rate is likely for the coming years, it was brought out.

The court passed a resolution in which they agreed to attempt negotiations looking toward establishing a county planning commission. This was necessary in order that the Neinda Water District could receive a \$295,000 grant from the federal government. The district plans to borrow an additional \$376,000 to lay water lines to supply customers in a district which runs almost around the city of Hamlin.

Another resolution raised the amount of money a single man can make from \$95 to \$100 and still be eligible to receive surplus government commodities. This was at the request of a state agency so that the local rule would be in line with that all over the state.

In other action, the court rejected one bid for a bridge to be constructed over California Creek in Precinct 1. The bid was for \$13,400 which the court felt was too high.

A new policy on sick leave was established. Employees will be given one day per month. This can accumulate up to a maximum of 30 days.

Commissioners learned that the tax rate for road district 1, which includes the northern half of the county, likely can be reduced to 15 cents. This is a reduction of 10 cents. It also was announced that this likely will be the last year the tax will be collected.

Tuesday, the board of equalization was told that the oil valuations were off \$600,000. The county is represented by the firm of Pritchett and Abbott.

Thursday and Friday the equalization board will set valuations on real estate. Some 65 to 70 people have submitted lower renditions of property, which would indicate that a good number will be present for the hearing.
